

Entrepreneur Project

Directions: Have you ever wanted to own your own business? Well, it's time to get started. You are going to create a business. You need to take your idea from just something in your head that you thought of, to a legitimate business that could be opened if you get enough investors. Think about what type of business would interest you along with what type of business would be profitable. Your business needs to be something which will draw customers and make money.

Your business must be a real thing. You must sell an actual real legitimate product. Also, no franchises, so you can't say, "I'm going to open a Chipotle in Palos Heights." It must be your original idea.

The problem is that you don't have enough money to get started. Each person in class has A LOT of money to invest in the ONE business they think will do the best.

After you do a lot of research (you will find out very quickly that a good project requires a lot of work), you will put together a presentation to the investors (everyone else in class).

Each student in class, will choose the company they believe will make the most money.

YOU WILL HAVE 2 WEEKS TO PUT YOUR BUSINESS TOGETHER AND BE READY TO PRESENT TO THE CLASS.
