# Propaganda

Countries used propaganda in World War I to make themselves look like the good guys and the other side look like the bad guys. It was also used to get people behind the war effort and do things like, join the military, conserve food and buy war bonds.

Below is an example of WWI propaganda

You are to create an original propaganda poster. You may use propaganda posters you find online for ideas, but you can't copy anything. Be creative, neat and take your time!

We will vote on the best posters and the winner gets donuts

Due on: Thursday February 4th
